The Ruoff **Notcher** is a punch press with an adjustable automatic feed. It is precision designed for punching various shapes, along the edge of sheet metal. Sheet steel, galvanized iron, aluminum, plastics, cardboard, or any sheet material that can be punched, can be handled by the RUOFF notcher. Installation of a ruoff notcher is easily handled in less than five minutes. Standard punch and dies provide either a 15 degree notch or a 3/32" slot. Other patterns are available for your Ruoff Notcher.

Here are some examples of what a Ruoff Notching machine is capable of doing.
